Bangladesh Meteorological Department  
E-24, Agargaon, Dhaka-1207

Ref. no:23.09.2680.172.43.002.25.1719

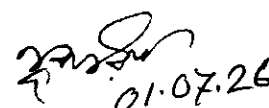

Date: 01 July 2026

**Sub:** Long range weather forecast for July-Sep 2026.

1. The values of Southern Oscillation Index (SOI) in July 2025-June 2026 were +6.8, +2.1, +0.2, +10.9, +12.5, +0.1, +9.9, +11.0, +8.9, -11.2, -14.5 & -24.9 (Bureau of Meteorology, Australia).
2. Below Normal rainfall (-29.4%) was recorded over Bangladesh during June 2026. The southwest monsoon onset over the country on 11 June 2026. Rainfall was normal in the Rangpur Division, while above-normal rainfall was recorded in the Mymensingh and Sylhet divisions. The remaining divisions experienced below-normal rainfall. Moderately heavy to heavy rainfall occurred at places across the country during 5-9, 11-12, 14-21, and 23-28 June 2026. Light to moderate rainfall was observed over many areas throughout the month, accompanied by thunderstorms with gusty to squally winds. The highest daily rainfall of the month was 178 mm, recorded at Netrokona on 12 June 2026. A mild to moderate heatwave affected many parts of the country during 1-8, 13-18, and 25-29 June 2026. The highest maximum temperature of the month was 38.6°C, recorded at Jashore on 4 June 2026, while the lowest minimum temperature was 18.5°C, recorded at Narsingdi on 19 June 2026. The monthly maximum, minimum, and mean temperatures were 0.9°C, 0.1°C, and 0.5°C above normal, respectively. Overall, the observed rainfall, temperature, heatwave conditions, thunderstorm activity, agro-meteorological conditions, and river conditions during June 2026 were generally consistent with the monthly weather outlook.
3. After appropriate analysis of weather observations, Climate Model, SOI (El Nino & La Nino condition) and weather forecast of July-Sep 2026 from the World Meteorological Organization (WMO) recognized institutes, Global Producing Centers (GPCs), Climate Predictivity Tools (CPT), ECMWF, JMA, NOAA, IRI-Columbia University, APEC Climate Centre (APCC), RIMES and C3S etc. the weather forecasts of July-Sep 2026 are given below:

Division	July 2026		August 2026		September 2026		Soil moisture (%) of June 2026
	Normal rainfall (mm)	Forecast rainfall (mm)	Normal rainfall (mm)	Forecast rainfall (mm)	Normal rainfall (mm)	Forecast rainfall (mm)	
Dhaka	371	360-380	301	280-320	263	250-280	30-40
Mymensingh	437	420-450	357	340-360	321	310-330	35-45
Chattogram	694	680-700	505	480-510	345	330-360	30-40
Sylhet	536	530-550	470	460-480	371	360-380	35-45
Rajshahi	311	300-330	251	240-260	267	260-280	25-35
Rangour	409	400-420	355	340-360	383	370-390	30-40
Khulna	362	350-370	287	270-290	277	270-290	25-35
Barishal	535	520-550	379	370-390	328	320-340	30-40
