

## Special Agro-met bulletin for possible light to moderately heavy rainfall due to cyclone “JAWAD” from 05-07 December 2021

(Bagerhat, Chuadanga, Jessore, Jhenaidah, Khulna, Kushtia, Magura, Meherpur, Narail, Satkhira, Barishal, Barguna, Bhola, Jhalokati, Patuakhali, Pirojpur, Brahmanbaria, Comilla, Chandpur, Lakshimpur, Noakhali, Feni, Khagrachhari, Rangamati, Bandarban, Chittagong, Cox’s Bazar, Dhaka, Gazipur, Kishoreganj, Manikganj, Munshiganj, Narayanganj, Narsindi, Tangail, Faridpur, Gopalganj, Madaripur, Rajbari, Shariatpur, Bogura, Chapainawabganj, Joypurhat, Naogaon, Natore, Pabna, Rajshahi, Sirajgonj, Habiganj, Moulvibazar, Sunamganj, Sylhet)

**Issued Date: 03/12/2021**

The deep depression over west central Bay of Bengal and adjoining area moved northwestwards and intensified into a cyclonic storm “JAWAD” over the same area. Subsequently, it is likely to continue to move north-northeastwards along coastal Odisha towards west Bengal coast. According to the medium range forecast of Bangladesh Meteorological Department, there is a chance of light to moderately heavy rainfall along with heavy rainfall in some places for the above-mentioned districts during the period 05-07 December 2021.

Subject to the analysis of data obtained from the Bangladesh Meteorological Department, with the approval of the Director General, Department of Agricultural Extension, the following Agromet advisories have been provided for the above districts:

- Mature vegetables and aman paddy are 80% ripe, before the rains, collect it and keep in a safe place.
- Boro paddy seedbed and aman paddy drainage drains should be kept clean so that excess water does not accumulate in the soil.
- Drain out excess water from the field.
- Cover the seedbed seedlings with polythene sheets to protect them from damage of rain water.
- Avoid from providing irrigation, fertilizers and pesticides.
- Avoid from sowing seeds and planting seedlings.
- Provide mechanical support to banana & standing vegetables.
- Keep the livestock shed clean and dry
