Special Agromet Advisories for the farmers during 24 June-30 June 2020

Date of Issue: 23.06.2020

Kurigram, Lalmonirhat, Gaibandha, Jamalpur, Sirajganj and Tangail districts for the flood situations.

According to the Flood Outlook of the Flood Forecasting & Warning Centre (FFWC) of Bangladesh Water Development Board as on 22 June 2020, the water level in Brahmaputra-Jamuna river system may continue to rise during the next 10 days. This may result there is more chance of flood like situation in short-medium duration flooding (at least 3-5 days) towards the end of this month in low lying areas for the above districts.

Thakurgaon, Tangail, Sirajganj, Sherpur, Rangpur, Rajshahi, Panchagarh, Pabna, Nilphamari, Natore, Naogaon, Mymensingh, Lalmonirhat, Kurigram, Joypurhat, Jamalpur, Gaibandha, Dinajpur, Chapai Nawabganj, Bogura districts in Bangladesh. As per the weather forecast issued by the Bangladesh Meteorological Department as on today, there is a chance of **very heavy rainfall** for the next 6 days (24-29 June 2020) for the above-mentioned districts.

Under such situation, following special advisories are issued for the above districts which are likely to be affected by flood situations.

Special Agromet Advisories

- Drain out excess water from crop field. To prevent water stagnation in seed bed, construct channels around the seed bed for drainage.
- Clean the irrigation channel for draining out extra water from the field.
- Raise the bund around the crop field.
- Community based Aman rice seed bed may be raised on higher places to avoid heavy rainfall & flooding.
- Arrange for elevated bunding around and inside the Aus paddy field so that water current may not affect the standing crops.
- Hold on all agricultural operations like transplanting, application of irrigation, fertilisers, pesticides etc.
- All the plant protection measures should be taken after the current spell of rainfall.
- Immediately harvest the matured vegetables.
- Immediately harvest the matured kharif maize.
- Provide mechanical support to banana & standing vegetables.
- Arrange for popping of sugarcane.
- Arrange boats for migration of essential food items and others from low to high land.
- Arrange for migration of livestock and poultry birds to high land.
- Maintain a good height of embankment around the pond. If possible, provide net or bamboo chatai around the pond to protect from flowing out with flash flood.
